Play Features

A detailed illustration of the XS Cyclone Spiral Multiplay Unit. The structure is primarily blue and black. It features a wide, grey slide on the left side. The main structure consists of a central tower with multiple levels, platforms, and railings. There are also climbing features like a spinner outrigger and a fireman's pole. Two circular inset images show children playing on the equipment: one on the slide and another on a platform. The background is a bright blue sky with white clouds and a yellow sun. The bottom of the image shows a strip of green grass.

Picnic table – 2 points each

Benches – 1 point each
