Q11 Please set out the changes that you consider are necessary to make the Northampton Local Plan Part 2 Submission Draft document legally compliant and / or sound including revised wording of any policy text, and reasons why the proposed change would make it legally compliant and/or sound. Please be as precise as possible.

To work with the Parish Council and other bodies on addressing impact of traffic movements within the reports that provide evidence of such impact on Great Houghton in order for the plan to be positively prepared and justified.

To co-operate with the provision of information with regard to upgrade of existing infrastructure known as 'The Green' from the proposed link to a minor junction.

To identify how issue with single track road, extremely difficult for vehicles passing, will be addressed in order to be justified and effective.

To identify how the issue with pedestrian safety, currently no footpaths, will be upgraded for the extent of the green in order to facilitate foot and cycle movements.

To provide an assessment of the change in air quality and its impact on all persons residing within the area or passing through it together with the effect on the overall environment.

To provide an assessment of the safety issues associated with the additional movements of traffic through the village of Great Houghton and the impact this will have on network of routes regularly used by cyclists and walkers.

To specify the measures to be taken to mitigate the impact of the additional traffic movement generated by this proposed development (Policy 36). Necessary to be taken for proposed submission to be sound.

A formal 7.5 tonne weight restriction must be introduced to prevent HGV's travelling through Great Houghton between the A428 and the B526 before policy 36 can be considered positively prepared or justified.

The A428, Bedford Road and Gt Houghton High Street Junction must be significantly improved to ensure the safety of all road users with particular reference on pedestrians. It is a major problem currently.
