Q1 Please provide your contact details in the boxes below:

| | |
|----------------------|-----------------------|
| Name (required) | Leanne Wildman |
| Address 1 (required) | ████████████████████ |
| Postcode (required) | ██████ |

Q2 Are you are an agent responding on behalf of another? **No****Q3** If you are an agent responding on behalf of another, please enter your details below: **Respondent skipped this question**

Q4 Which sites that have been assessed as being suitable for further consideration (Appendix A) do you think are most appropriate for development? Please state site number(s) – e.g. LAA0999 - and tell us why you think each site is most appropriate **Respondent skipped this question****Q5** Which sites that have been assessed as being suitable for further consideration (Appendix A) do you think are least appropriate for development? Please state site number(s) – e.g. LAA0999 - and tell us why you think each site is least appropriate

LAA1098, The Green

This site is listed as having the potential to feature up to 840 houses which I believe would be highly inappropriate for the site. The site is listed as having road access already in place but this access is in fact extremely limited. There is no infrastructure in place that would allow access to build and there is limited scope to create such infrastructure.

The consideration report states that 840 houses could be built as a natural extension to the village of Great Houghton. I would argue that 840 houses would not be a natural extension to a village, rather it would swallow the village identity and create a variety of access problems.

Currently, traffic wishing to enter or exit Great Houghton has the option of the Bedford Road A428 or The Green at the top of the village. The A428 junction has been the site of a number of accidents recently. To reach this junction, traffic has to travel through the village High Street which in places is very narrow and at busy times struggles to cope with the current volume of traffic. To add an additional 840 homes that would potentially need to use this exit would create a huge issue. The other road option leading from the proposed site is The Green. This is a narrow country lane that in parts is difficult for two lanes of traffic to fit through. The edges of the road are almost always needing pothole repairs due to the current traffic levels. To potentially force traffic from 800+ homes along this route to the Newport Pagnell road would create additional traffic problems there.

The impact on Schools, Doctor's surgeries and the Hospital would also need to be addressed.

Q6 Which sites do you think should be protected from development? Please state site number(s) – e.g. LAA0999 and tell us why you think each site should be protected from development

LAA1098, The Green

This area sits adjacent to Brackmills wood and country park and houses an abundance of wildlife. I believe it would be detrimental to the countryside to develop this site.

LAA1024, Great Houghton School

Whilst I can see that this site could provide housing, I believe the quantity should be carefully considered. The old school is a lovely historical building and should not become part of a housing estate. Furthermore, there are already traffic safety issues with the A428 Bedford Road junction so to introduce hundreds of new homes adjacent to this junction would further compound the existing issues.

Q7 Are there any sites that have been assessed as not being suitable for further consideration (Appendix B) that should be? Please state site number(s) – e.g. LAA0999 - and tell us why you think each site is suitable for further consideration **Respondent skipped this question**

Q8 Are there any sites which you think should be used for other purposes? Please state site number(s) – e.g. LAA0999 - and the best use for the site, e.g.: Residential Employment Retail Community facilities Open or green space Waste Other (please specify) **Respondent skipped this question**

Q9 Are there any other sites you think are suitable for the Council to consider in preparing the Local Plan Part 2? Please give further details, and submit details by email using the Call for Sites form available on the Council's website **Respondent skipped this question**

Page 4: Sustainability Appraisal of Site Options & Habitats Regulations Assessment

Q10 Do you have any comments on the Sustainability Appraisal of Site Options? **Respondent skipped this question**

Q11 Do you have any comments on the information to support the Habitats Regulations Assessment? **Respondent skipped this question**
