Regarding the proposal to look at two areas off Birds Hill Road for future housing - I object as this would be too close to existing housing & would result in extra traffic on Birds Hill Road which is already a busy road.

The other proposed site in Lings, off Hayeswood Road would be close to a children's play area which is widely used. The slide & rollerbarrel were provided by the Brookside Residents' Council some years ago. Again additional traffic would be problem especially as the entrance to Lings primary school is on this road.
