**Subject:** Proposed Submission round 2

Hello,

Please see below an officer response from Harborough District Council.

Thank you for consulting Harborough District Council on the Northampton Local Plan Part 2. The plan is not strategic and therefore has limited impact on Harborough District.

However, HDC note the inclusion of Policy 34 – ‘Transport Schemes and Mitigation’ which safeguards the route of the former Northampton to Market Harborough railway line for future transport use. In line with comments made to the West Northamptonshire Strategic Plan Issues consultation, the North-South rail is an interesting proposition and is worthy of further consideration. We would like to be included in any future discussions regarding this project.

Regards,

Jo
