Subject: FW: Northampton Local Plan Part 2 Proposed Submission Consultation Round 2 - extension to deadline

Paul

Thank you for the opportunity to comment on the Round 2 consultation of the Northampton Local Plan Part 2. I am pleased to note the reference to security and crime prevention in Policy 3 Design. Sustainability Appraisal Objective 5 Reduce Crime and the Fear of Crime indicates that as a result of Policy 3 there would be a significant positive effect in relation to this SA objective due to the requirement to have full regard to the needs for security and crime prevention, with crime prevention measures incorporated into the site layout and building design. I consider that the potential to design out crime is therefore adequately covered and have nothing further to add.

References to Sustainable Appraisal Objective 5 Reduce Crime and the fear of crime in Northampton

Policy 3 scored a significant positive effect in relation to this SA objective due to its requirement for new developments to have full regard to the needs for security and crime prevention, with crime prevention measures incorporated into the site layout and building design, as well as a requirement for active frontages and overlooking of the public realm and public open spaces by houses. Additionally, three policies (1, 2, 32) scored a minor positive effect in relation to this SA objective due to the fact they promote the development of a safe and secure environment. No significant positive, significant negative or minor negative effects were identified. Site allocations that do not have site-specific allocation policies are not capable of addressing this objective and have negligible effects.

Sharon
